

Zagros Dataware is a process and design consultancy registered in Yerevan, Armenia, running three practices under one name: enterprise process discipline, startup validation speed, and process-minded web design for local business. We apply the right discipline at the right speed — structure where it protects you, speed where it saves you.

PRACTICES

Enterprise Process & ERP

Institutional-grade process discipline, engineered for scale.

- BPM & BPMS implementation
- Agile-BPM iterative delivery
- BABOK business analysis
- ERP consulting & rollout

Startup Enablement

Validate faster, build the right thing, de-risk the bet.

- Lean Startup / Build-Measure-Learn
- Google Design Sprints
- Design Thinking facilitation
- Value Proposition Design (Strategyzer)

Web Design & Local Commerce

Get your business found, trusted, and bought from — online.

- Business website design
- Online ordering & booking
- Local discoverability / SEO
- Ongoing care & iteration
